

MOUTH-BLOWN RESTORATION WINDOW GLASS

## Old World Colonial™

Authentic! Hand-made in Europe the way it has been for hundreds of years, this mouth-blown glass is produced by master craftsmen. This glass is a beautiful balance of clarity and movement. It is exactly what you want if your restoration job calls for 100% authenticity when replacing blown glass from the pre-1900's. This exquisite glass is available in three categories: P-1, Light Restoration Window Glass; P-2, Medium with Cords; and RM, Heavy with Reams.

DRAWN RESTORATION WINDOW GLASS

## Restover®

A distinctive machine drawn fire polished glass which adds beauty and elegance to any light restoration project where early 1900's authenticity is required. It features a subtle wave and no seeds or defects. Available in 1/8" and 3/16" (temperable) thicknesses. Large sheet sizes offer extended application possibilities and utilization optimization.

DRAWN AUTHENTIC RESTORATION WINDOW GLASS

## ReNova™

ReNova™ is the most authentic looking machine drawn restoration window glass on the market today. Produced specially for Hollander Glass and Bevel King Door and Glass Company, this fire-polished glass is a near perfect match to any fully mouth blown window glass that you will find. It exhibits a beautifully fluid, crystal clear waviness, is temperable, available in high-yield sizes, all at a more affordable price!

HEAT TREATED RESTORATION WINDOW GLASS

## Retroverre™

When period authenticity is not a requirement, yet the "old world" look is desired and economy is a consideration, **Retroverre™** is a clear choice. Made from a proprietary process that infuses tiny pits in the surface of a highly polished glass, **Retroverre™** conveys the illusion of old glass. **Retroverre™** offers the highest yield with its non directional distortion with the added advantage that the distortion is noticeable even in small pieces. Ideal for kitchen cabinet glass, old clocks, furniture, and lighting fixtures. Available in 3mm (1/8") thickness, **Retroverre™** can only be tempered in special circumstances by the manufacturer.

RESTORATION WINDOW GLASS

*Mouth-blown, Machine Drawn & Heat Treated*

† Although not historically accurate, circa 1800 is a architectural alternative to the Old World Colonial when large sizes do not permit its use.  
 †† Renova displays a exaggerated waviness for a modern interpretation of the old world look.
